

# National requirements GERMANY - Info for partners

---

## Classic projects

- Through the national documents, Germany is performing the national verifications foreseen for each project partner in a classic project as stated in the Selection Criteria of the programme.
- Each Lead Partner and Project Partner from Germany is obliged to submit the national requirement documents.
- The documents are **due by the same deadline as for the submission of the full application for classic projects in the 2<sup>nd</sup> step** for which the respective project partner is applying for. The respective valid deadline is available at the website of the Alpine Space Programme.
- Please submit the national requirements with all further accompanying documents **by the above mentioned deadline** to the ACP Germany by postal service (Contact details: [Kontakte - Alpine Space Programme \(alpine-space.eu\)](#)).
- The national documents are named the following: “Verpflichtungserklärung” and “Partnerformular”.

## Small-scale projects

- Through the national documents, Germany is performing the national verifications foreseen for each small scale project partner as stated in the Selection Criteria of the programme.
- Each Lead Partner and Project Partner from Germany is obliged to submit the national requirement documents.
- The documents are **due by the cut-off-date for submission of the application for small scale projects** for which the respective project partner is applying for. The respective valid deadline is available at the website of the Alpine Space Programme.
- Please submit the national documents with all further accompanying documents **by the above mentioned deadline** to the ACP Germany by postal service (Contact details: [Kontakte - Alpine Space Programme \(alpine-space.eu\)](#)).
- The national documents are named the following: “Verpflichtungserklärung” and “Partnerformular”.

For any further question about the national requirement documents, please get in touch in time with the ACP Germany.
